

Sample Defect Report — Booking Hotel Mobile App

Defect Information

Defect ID	BUG-0142
Project / App Name	Booking Hotel Mobile App (iPhone)
Reported By	Zarif Nur Aiman (QA Tester)
Date Reported	15 february 2025
Build / Version	v2.3.1 (Build 218)
Module / Feature	Room Booking > Date Selection
Severity	High
Priority	High
Status	New

Environment

Device	iPhone 16
OS Version	IOS 25
App Version	1.6.12
Network	Wi-Fi

Summary

Choose date section is obscured.

Steps to Reproduce

1. Open the booking hotel mobile app and log in.
2. Choose any room and select desired date

Expected Result

App should display a select date dropdown for user to choose.

Actual Result

The dropdown is obstructed by the size of the device and user cannot choose their desired date

Evidence

- Video: checkout_crash_repro.mp4
-

Frequency

Reproducible — occurs 5/5 times.

Additional Notes

- N/A

STLC Context Notes

This defect report is filed during Test Execution, after test cases from the Test Case Development phase were run against the build entered under Test Environment Setup. The bug fix will later be verified in a retest, followed by regression testing to confirm no related functionality broke, before closure in the Test Cycle Closure phase.
